Dear Sir:

Application is hereby made on behalf of LLOG Exploration Offshore, Inc., ("Applicant"), to the Commissioner of Conservation for a public hearing to consider evidence relative to the issuance of an Order pertaining to the following matters relating to the 10,200' Sand, Reservoir A, in the Breton Sound Block 20 Field, Plaquemines Parish, Louisiana.

1. To establish rules and regulations governing the exploration for and production of gas and condensate.

2. To create a single drilling and production unit for the exploration for and production of gas and condensate.

6. To provide that the Commissioner of Conservation should be authorized to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.

7. To consider such other matters as may be pertinent.

The 10,200' Sand is hereby defined as being that gas and condensate bearing sand encountered between the depths of 10,217 feet and 10,305 feet (electrical log measurements) in the Kerr McGee Oil & Gas Corporation (LLOG
